**Note:**

- This list serves as a guide for private owners, stakeholders or developers who need help to engage a contractor to carry out repair/rehabilitation works for their private sewers. It is neither exhaustive nor an endorsement of their performance.
- Private owners, stakeholders and developers are under no obligation to engage these contractors and are advised to make necessary comparisons or checks before engaging them.
- All services rendered and payments made are strictly viewed as private arrangements between private owners, stakeholders or developers and the Contractor. PUB does not in any way receive any commission through this service. In this aspect, PUB acts only as a referral body. PUB shall not be responsible or liable for any act or omission on the part of the contractors for any loss, damage or injury caused in or as a result of the performance or non-performance of the works contracted for or as a result of any wilful conduct or negligence on the parts of the contractors.
- If you engage a contractor to carry out repair/rehabilitation works, do request a copy of the closed-circuit TV survey report and/or a copy of the leak test report from them. The contractor should also provide a warranty of at least one year for the completed works.
